No Greater Story

LEON EVANS

- Looking through the eyes of Isaiah, this book invites us to go on an exciting journey, exploring the greater story of God as creator, redeemer and perfecter. Everyone has a story...it's not always the story we want.
- What if our story could be redeemed and find meaning and purpose? It can be, when it becomes part of God's greater story.
- In a day and age where the big stories, the meta narratives, seem to be collapsing and our world is marked by increasing polarisation, division and uncertainty, No Greater Story by Leon Evans will cause us to lift our eyes, inspire our hearts, activate our faith and strengthen our Christian walk.
- We won't just be in the classroom, we will be in the living room and then the playground, where we will learn how to rediscover our part in this epic adventure after all....there is no greater story.
